### **Overall Conclusion and Recommendations:**

- It is rather difficult to conclude that the overall performance is satisfactory with even the best performer, CSE, not crossing 70 % in most of the categories.
- Among the departments, CSE AND ECE have been consistent in their performance while EEE has to improve a lot.
- A major contributory factor to this dismal performance could be the utter lack of seriousness by the students during the training and reluctant to do the homework thereafter.
- The above phenomenon in conjunction suggests the need for not only starting the training from the first year onwards but also discipline and sincere practice from the students end.
